

The Meaning of Our Technological Age in the Light of Anthroposophy

Dear friends, we invite you to the event "The Meaning of Our Technological Age in the Light of Anthroposophy" where we have Andrew Linnell from the United States of America as our guest speaker. Together we will discover profound

aspects of technology, its evolution and development by human beings. We live more and more in a world that we feel we don't resonate with and that "takes our wings away", but during these wonderful days we will find ways and measures to bring balance in our lives.

Dates: 22-24 March 2024

The event will take place at the Rudolf Steiner House, Bucharest, sector 2.

For details and registration: 0740955086 - Christian-Aleodor Lăzărescu

For details, registration and accommodation options: 0744518913 - Christian Lăzărescu

Seats Limited to 30 people, early registration is encouraged.

Andrew Linnell is co-founder of MysTech, an Anthroposophical organization seeking to realize Rudolf Steiner's indications on Mechanical Occultism. He received his MS in 1973 and subsequently began his career with IBM. In 1978-79, he took the Foundation Year at Emerson College, Sussex, UK. In 2013, he retired from a 42-year career in the computer industry where he had leading positions for large companies and served as CTO or VP for small companies. For a decade, he served as president of the Boston branch of the Anthroposophical Society. He is an active member of the Natural Science Section and its steering committee. He has served as admin and contributor to several Anthroposophical Facebook groups. He is the author of three art history books, two children's books, and seven study guidebooks that explore the role of technology in human evolution.
